

Intensive English Immersion Program for
Nagoya University
February – March 2019 (3 weeks or 4 weeks)

The Center for English as a Second Language (CESL) at Southern Illinois University Carbondale (SIUC) is happy to present a special Intensive English Program to students from Nagoya University. The program consists of 20 hours of English language instruction per week. Students will take a placement test upon arrival to determine the best level for their current language skills. They will also be integrated with students from all over the world that are participating in the regular CESL term. This is an excellent opportunity for Nagoya University students to strengthen their English skills while they also engage in extensive cultural exchange. In addition to classes, social activities and excursions will be provided to enhance the overall immersion experience.
